

LOCKSMITH SERVICES KEY POLICIES AND PROCEDURES

A. GOAL

The purpose of this policy is to provide adequate building security for persons and property through the control of keys issued, to ensure appropriate access to work areas for employees into University buildings and to allow unrestricted access by Police, Fire and Facilities personnel to all campus areas for reasons of security, facilities maintenance and repairs, safety and health.

B. DEFINITIONS

1. **Great Grand Master Key:** Provide total access to all buildings within a particular system on campus. Authorization for this key is restricted to Police and Fire and Facilities personnel only.
2. **Building Master Key:** Provides access to all spaces within one building. The issuance of this key is restricted to persons authorized by a Dean, Department Head or Director. Each individual should only be allowed one key. Locksmith Services can have final discretion of issuing Building Master keys when deemed appropriate.
3. **Building Sub-Master Key:** Provides access to a group of rooms within a building. The issuance of this key is restricted to persons authorized by a Dean, Department Head or a Director. Locksmith Services can have final discretion of issuing Building Master keys when deemed appropriate.
4. **Exterior Door Key:** Provides access to building exterior door. Authorization for this key is the same as a Building Sub-Master Key. These are not issued where card access is present. Locksmith Services can have final discretion of issuing Building Master keys when deemed appropriate.
5. **Individual Room Key:** Provides access to a room/office or multiple rooms or offices that might be keyed alike within an individual building. Authorization is granted by the Dean, Department Head or director.
6. **Card Access:** Areas where there is an electronic reader for access in lieu of a mechanical key, occupants will use a card. In these instances, Locksmith Services does not issue a physical key.

C. BASIC POLICY FUNDAMENTALS

1. Public Safety (Police and Fire) and Facilities staff must have unrestricted access to all campus areas for safety, security, and health reasons.

2. All employees (including Graduate Assistants and Student Workers) of the University will be assured access to their workspace. New employees will be issued key(s)/card access to the area(s) they work in and according to their need to access other areas.
3. Master and Sub Master Keys shall not leave University property. These keys, when not in use, shall be secured in a locked area by the key holder.
4. The issuance of keys/card access for all University buildings must be requested and authorized via a work order as outlined in Sections B & D.
5. The issuance of keys to non-University employees (University Affiliates) with assigned spaces (i.e., food service, leased) must conform to the basic principles identified within this policy.

D. ISSUANCE OF KEYS

1. All University employees will be issued a key or card access(s) to their own office and/or work area(s) that are regularly locked.
2. Faculty members and academic staff may be issued keys/card access to their own offices and may also be issued keys or access to laboratories, stockrooms and other work areas, which they utilize, and which are regularly locked. Faculty and staff will be issued keys/card access to all other areas upon approval by the appropriate Dean, Department Head or Director. All requests must be via a work order and clearly explain and justify the need. Only one (1) key per space, per person should be issued.
3. All keys **must** be signed for by the person they are being issued to. All must be signed for in-person at Locksmith Services where a record of issued keys will be kept.
4. A UConn ID/photo ID and NetID will be required when signing for new keys.
5. One key will be issued to an employee for any area in which they work. The Department will be charged for replacement of a lost or missing key or failure to return an assigned key upon that employee's separation from the University (see Section G). A replacement key **will not** be issued. If the key is lost, a forced lock change will take place at the department's expense. Locksmith Services will then issue a new key.
6. No Master Key(s), shall be issued, lent, assigned to any student. Authorized student workers in roles that require having an assigned master key, *may be* authorized with approvals from the Dean, Department Head or Director AND Locksmith Services.
7. Duplicate keys are not issued.

E. KEY REQUEST PROCEDURES

Locksmith Services will determine if and when locks need to be changed as a result of a lost key(s).
